

Working Student – Energy Services

BUZZN is building an ecosystem for the future of decentralised energy. We are a team of cause-driven professionals with different backgrounds. We teamed up to build robust tools for the decentralised energy transition in the digital era where the environment and the human beings take center stage – not technology, money and bureaucracy.

We now seek working students who are enthusiastic about supporting our energy operations and have the following interests and skills:

- » Enrolled in energy, resources or related studies.
- » Basic understanding of energy systems and markets.
- » Data analysing and reporting.
- » Familiarity and openness for IT tools and platforms.
- » Familiarity and openness for project management tools.
- » Good command over German and English languages.
- » The decentralisation (energy) revolution is important to you.

Sounds like you? If yes, these could be your responsibilities:

- » Monitor and report the energy performance.
- » Perform health check of energy devices and communicate to stakeholders.
- » Support the energy team in processes concerning distribution system operator.
- » Analyse our clean energy portfolio on the market.
- » Import and export data on the web platform.
- » Support in tracking projects and business operations.

The position requires
12 hours per week and the
working location is
DEZENTRALE
(Arnulfstr. 114) in Munich.

If you are interested, tell
us about yourself and your
motivation for applying to
this role by writing to us at
team@buzzn.net.
