

## THEMA Consulting Group is looking for summer interns

**THEMA Consulting Group is a leading consulting company in the energy and transport sectors. We help utilities, renewable energy investors, energy-intensive industry, trade and transport organisations, government bodies and a range of other players to navigate the challenges and opportunities in a fast-changing world.**

**Our consultancy is rooted in specialist knowledge of the driving forces affecting the sectors in which we work, including political, market and technological developments, as well as our ability to use this knowledge to understand the strategic challenges and options facing our clients. Our work is supported by advanced quantitative analysis, as well as renowned models and modelling techniques. THEMA works closely with major clients in Norway, the Nordics and Continental Europe.**

Would *you* like to experience a summer in Oslo as a consultant in one of the leading consulting firms in the Nordic energy sector? As a Summer Intern with us you will be working closely with our consultants on our project portfolio taking on projects in energy sector and the transition to a more sustainable energy future.

THEMA is looking for high performing and motivated individuals for a Summer Internship lasting for around 6 weeks and who are interested in consulting within the energy sector. We are looking for a self-reliant easy-going candidate with analytical skills and a desire to work with challenging problems related to the energy and transportation sector. We will adapt the tasks to the profile of successful applicants and include them in our team work on relevant projects. The work may involve data gathering, model development, analysis and producing written or visual content, among other things.

### We are looking for candidates with:

- Strong academic results and analytical skills
- Interest in energy, transport and renewables
- Desire to work as a consultant and ability to interact with clients in a good way
- Ability to cooperate effectively in a team
- Ability to communicate fluently and effectively in English, verbally and written. Fluency in a Scandinavian language is an advantage.
- Interest in Oslo and Norway
- Eligibility to work in Norway
- In the final or penultimate year of a master's programme

### We offer:

- Steep learning curve through project work
- Support from more experienced consultants
- Exposure to relevant topics and players in the energy sector.

Does this sound interesting? Read more and apply by 17/1-21 for the Summer Internship 2021 with THEMA Consulting Group at [thema.no](http://thema.no). Please attach a cover letter, CV, academic transcript from higher education and your references from previous positions if applicable.
